

RCP

SCANNING SERVICES

for Artists

www.RCPScanning.com

WHAT RCP OFFERS:

- Ability to scan originals up to 48 x 72 with no touching of the original item.
- Originals larger than 48 x 72 will still be perfectly scanned with multiple scans and our digital stitching software.
- Surface details can be easily captured on paintings and other textured items with the Cruse Scanner's raking light.
- Items can be scanned in their frames behind glass.
- In many cases, same day service will be available.
- RCP can accommodate single items, or entire collections.

Please contact us via email or phone at: info@rcpsscanning.com & 517-647-4600

WHY SCAN YOUR ART?

The key to the best possible reproduction of your art, is a high quality digital scan. RCP operates a Cruse Scanner that provides the highest quality image capture at any price.

Precise Color Reproduction:

- RCP maintains state of the art color environments on all equipment.
- ICC Color Profiles available for all media types. Profiles can be customized to artist preferences.
- Every scan is compared to original art by trained professionals to assure accuracy.
- Optionally, a proof print will assure future prints match perfectly.

Precise Alignment:

Our Cruse Scanner provides:

- Perfect parallelism/alignment
- Eliminates lens distortion
- Eliminates vignetting

Precise Lighting:

Our Cruse Scanner provides:

- State of the Art LED lighting
- Flat, uniformed coverage
- Optional special effects to highlight original art texture

"RCP scanned some of my pen and ink work recently. The process was simple, and the output fantastic. These scanned images will be an integral part of my on line gallery."

-Chuck Schroeder
